Eye On Our Community

On sale now in our office are small decorative yellow squash for the fall. They are a part of our annual fundraiser for the Chester County SPCA. All proceeds from the sales will go to benefit the local SPCA with matching funds from Eye to Eye Ophthalmology. They are \$0.25 each and grown in Dr. Luscvage's garden. Stop in any time to buy them to decorate your house for the fall. Our annual daffodil bulb and tomato sale is over! For the month of August, we sold organic tomatoes and daffodil bulbs also from Dr. Luscvage's garden to raise funds for the SPCA. We raised \$125 this year from this part of our sale for such a good cause.

Dr. Luscvage participated in 2 different charity bike rides this summer. The first was the Chester County Challenge for Cancer sponsored by Chester County Hospital. The ride was on Father's Day. She also rode in the YMCA Benefit Bike Ride on August 19th. She biked 54 miles on that ride! The ride benefited the Good Kids Campaign.

Eye to Eye sponsored a booth at the Jenner's Pond health fair (as we do every year) on May 4th. Dr. Luscvage and Joanne conducted free glaucoma and cataract screenings for the community.

On October 10th, Dr. Luscvage will be speaking to the physicians and staff at Community Volunteers in Medicine about "Diabetes and the Eye" as part of their lunch lecture series. Dr. Luscvage sees outpatients from their clinic on an as needed basis. The clinic services the working poor of Chester County.

Sports and the Eye

Did you know that 40% of all eye injuries are sports or recreational activity related? This is the time of year when school sports start back up again so make sure your child has prescription protective eyewear for his or her sport. You as an adult should also wear protective eyewear for sports to set a good example. Among all eye injuries reported in a study by the American Society of Ocular Trauma only 5.3% of people were wearing safety or sports spectacles. Safety glasses should have ANSI Z87.1 on the lens or frame.

For all of you swimmers out there, did you know that Speedo makes inexpensive prescription goggles? They can be bought at the swim outlet.com for around \$20. The goggles have the same prescription in both eyes so they are not always exactly your prescription, but they are close enough for most people to see while they swim. Ask Dr. Luscavage which strength to buy next time you come in for an exam.

(Statistics in article from American Academy of Ophthalmology's website on eye injuries)
