Eye to Eye's New Home is Coming Into View!

We are happy to announce that coming in the summer/early fall of this year, Eye to Eye will be relocating to our new home! Do not worry, however, the new location is still in the Unionville/Chadds Ford School District, only a few miles away from our current location. In fact, we will be closer or about the same distance away for the majority of our patients.

Our new location is 1008 Unionville - Wawaset Rd, Kennett Square. We are in the process of converting this beautiful 1890's farmhouse into a state of the art, expanded location for our office. It is in beautiful Newlin Township, halfway between Northbrook Orchards and Unionville on SR842 (Unionville-Wawaset Rd). We will have ample free parking as well as full handicap accessibility. The building will house 4 exams rooms, a large waiting area, a dilating waiting area, as well as a contact lens room and a surgical scheduling suite. Construction is under way now and we will be sending a special notice out when we firm up a move in date.

Like Eye to Eye Ophthalmology on FaceBook for updates and pictures of the progress!

Eye on our Staff:

This is a feature of our newsletter where we place the spotlight on one of our staff so you can get to know them better for your next visit to the office.

We have a new member of the team at Eye to Eye. She started in December 2012. Many patients have met her already. Glenda is on staff serving as both receptionist and a technician. You will see her when you check in or she may work with patients on preliminary testing before you see the doctor.   She specializes in administering visual fields to patients. That is a test that can detect dysfunction in central and peripheral vision which may be caused by various medical conditions such as glaucoma, stroke, brain tumors or other neurological deficits.

Glenda joins our office after a career in day care with a degree in Psychology from Widener. She and her husband, Greg have 2 children, Drew (16) and Mia (10), and a lively dog named Jett.   She is originally from New Jersey.

EYE TO EYE IN THE COMMUNITY

On May 3rd, Eye to Eye will be participating in the Jenners Pond Heath Fair, as we do every year. This is event is held in the Allison building where Dr. Luscavage and Joanne will be performing free glaucoma and cataract screenings. Dr. Luscavage also does free glaucoma and cataract screenings every fall at the West Chester Senior Center, if you cannot make this one.

Dr. Luscavage is now a volunteer at Community Volunteers in Medicine in West Chester. This facility is a clinic for the working poor of Chester County. The doctor goes there once a month to perform free eye exams for their patients. She also gives talks to the staff on common eye ailments.

She was also invited to speak about cataracts, glaucoma and macular degeneration at Brandywine Lions Club on February 22nd this year.

On March 5th, Dr. Luscavage was a judge for the Jonas Salk Science Fair. This is the science fair for Chester County for 5th and 6th graders who won at their respective elementary schools in the area. The children all did a wonderful job and were very enthusiastic about their projects.
